Brief Profile:

I have retired as Associate Professor (renamed from Reader) in the Department of Mathematics, Stella Maris College on 30 April 2023 (DOB: 4 Feb 1963; Nationality - Indian).

I was appointed as **Lecturer** in the department of Mathematics, Stella Maris college in July 1992 and got a government affiliation on 04.10.1993. I got a promotion as **Senior Lecturer** in July 1998 and then became **Reader** in October 2003. It was renamed as Associate professor by the Government of Tamilnadu.

I have over 30 years of experience in academia and have guided over 50 post-graduate students on their dissertations, and 5 doctoral scholars. I have been on the doctoral committee of 32 students and was the Ph.D., Viva-Voce examiner for 14 candidates.

Research: My doctoral dissertation and area of interest are in the area of Fuzzy mathematics in which I've published 34 international publications. My first paper which is a single-authored paper is on Finite dimensional fuzzy normed linear space and is recognised as a fundamental work. In 2013, one other fundamental work on octagonal fuzzy numbers was well-received by the scientific community. Currently, my publications have 870 citations, h-index 6, and i10 index 4. I have also served as the corresponding or associate editor for special issues of some International journals in the field of Mathematics.

Areas of interest in research include fuzzy numbers, to name a few : Trapezoidal, Octagonal, soft Octagonal fuzzy numbers, soft fuzzy sets, soft fuzzy information systems involving Octagonal fuzzy numbers, Neutrosophic fuzzy numbers and their applications in fields of Operational research problems, Decision making problems involving real time data.

There are several open problems still available to explore in these and similar areas.

I am invited to speak in the International Symposium International Symposium on Management Engineering (ISME) 2024, 04-06, October, 2024 hosted by Shimonoseki City University by the General Chair of the symposium, Dr. Yoshiyuki Yabuuchi, Shimonoseki City University, Japan. I will be delivering the paper "A More General Class of Linear Octagonal Fuzzy Numbers in a Soft Environment", a new area to begin with.

Awards and Recognitions: I have won several awards, the latest of which is the Distinguished Professor Award 2021 by the Institute of Researchers, India. I was elected as a Fellow of the International Forum on Analysis in 2003, General Secretary of, the International Forum for Interdisciplinary Mathematics (Member of the Governing Council holding different portfolios over

various periods), to mention a few. As a NCC officer, I received the best officer-cadet DG silver plaque of Honour award (1995). I was invited as a Visiting Professor to the Department of Mathematics, H.P.University, Shimla under UGC sponsored SAP Programme (August 1-8, 2009).

I have been part of several decision-making councils/committees of the college such as Governing Body, Academic Council, Examination Committee, Sports and Library Committee, BoS, Research Ethics, NAAC, Autonomy Review, finance committee etc. I was also a member of the PG Board of Mathematics, University of Madras and subsequently appointed by the University as a subject expert on the Faculty Recruitment Board for colleges under the University of Madras during the year 2017-2018. I was appointed by the Tamil Nadu government as one of the authors of the +2 Mathematics text book in the year 2005, again as a domain expert for the +1 and +2 textbooks in 2015 and to conduct several in-service training programs for school and college teachers.

Throughout my career, I have been involved in organising several International Conferences bringing eminent people in the field, whom I am associated with. I have also been instrumental in introducing an International PG Programme in Data Science at Stella Maris, in collaboration with GITTA, Research Park, IITM Chennai and Liverpool Hope University, UK.
